### ABOUT

Total Eraze White is a high gloss white PVC film used for whiteboard applications. This whiteboard film contains a High Tack Permanent adhesive, which makes the film suitable for a wide range of surfaces such as painted walls. Total Eraze White is top coated with a low energy lacquer to ensure clean and effortless removal of the ink used in whiteboard markers. Moreover, this self-adhesive whiteboard is very easy to apply thanks to the thickness of the film (150 micron). For great results we encourage using our **97.011 | Eraze Marker Black** or, when using different markers, to consult the Total Eraze marker compatibility list on our website.
