

51.000N | Total Eraze Matt Clear

TOTAL DECO | Whiteboard Films

ABOUT

Total Eraze Matt Clear is a matt transparent PVC film used to create custom whiteboards by laminating this product on printed vinyls, walls, cardboards,... The low energy lacquer on this film ensures clean and effortless removal of the ink used in whiteboard markers, while the anti-glare topcoat makes this whiteboard film the ideal solution when used in combination with a beamer. Total Eraze Matt Clear is very easy to apply thanks to the thickness of the film (100 micron). In order to create custom whiteboards, we strongly recommend combining Total Eraze Matt Clear with our [Total Mark print films](#). We encourage to use our [97.011 | Eraze Marker Black](#) or, when using different markers, to consult the 'Total Eraze marker compatibility list' on our website.
