## ABOUT

Black Emboss Film is a premium quality textured polymeric vinyl, which has been specifically developed for use in the automotive and recreational vehicle market to be used for blackout, kick tread and stoneguard applications. The matt black film is applied to areas that are vulnerable to stone chipping or scratching. Black emboss can also be used for decorative detailing. We have this product available in both 190 micron (51.201N) and 320 micron (51.202N).
